Dear Padmanava,

I take the opportunity to thank you very much for the interest shown for the R.N. Basu girl's School. Although we received your communication some days back but we could not reply because of searching of the technicalities of the alternatives to the proposal sent earlier as well as to discuss the matter with all concerned. Finally, considering the fund limitations we have decided the following:

1. To arrange for an Underground Tank and an Overhead Tank for un-interrupted hygienic water supply to the students and the teachers. This is possible by extending the pipes from the existing water supply system available at a distant place. We have discussed the matter with the authority that is in agreement with the proposal. The total cost which also include the distribution systems to the bathrooms and the toilet blocks. has been estimated to be Rs.57000.00
2. Secondly with the remaining amount of the earmarked grant of INR 70,000; 2 Almirahs shall be purchased for the school which shall cost around Rs.13000.00

   Thus the total estimated cost shall be Rs. 70000.00 only which we request you for disbursement.

   Lastly, we would like to state that the said school does not have any fencing and this is not desirable especially for a girl's school in the village set up. As such, we would request you to consider the matter when your fund shall permit.

   Hope, necessary action shall kindly be taken from your end.

   With best wishes and regards,
   Yours truly

   Nemai Khara

   Secretary
   DSKS
