

Summary of Inspiration visit by Padmanava Sen (Asha Bangalore/Atlanta volunteer)

The visit was done on **26th June 2018**. It was a follow up visit after February 2018 visit. I wanted to see the gender sensitivity training conducted for students and teachers. On that day, it was scheduled for teachers. I have observed the training and time to time interacted with the teachers as well. Given teachers have a big role to play working with the students, it seems quite important to conduct such sessions. Different situations are described, and teachers are asked to respond. Also, there was discussions and debate in certain topics. I had a good interaction with the teachers afterwards.

Different Situations Described

Teachers During Workshop

Teachers and Trainers after workshop

Teachers and Trainers with me after workshop
