Hi all,

Please find final decision attached based on poll.

Based on 14 total votes, here are the final numbers:

Full budget approved for Rs 6,52,000 for year 2015-2016- 13 votes

Some comments for this section are:

1. Are there any other day-to-day running expenses for Manasa? For e.g. school bus etc? We can consider supporting that also, so it will free up some of their donation funds for the sanitary napkin project.-- **Vinod**
2. Please recommend an ENT check up depending on the availability of the doctor.- **Anusha**
3. We can add the expense of ENT doctor's visit every month as suggested by Anusha and even if full amount is sanctioned, we will be sending partially as of now, right?- **Ganesh**

For sanitary napkin project, the votes are as follows:

Machinery and setup , transportation and training- Rs. 2,83,735- 12 votes

Misc Expenses- Rs 28,374- 6 votes.

Based on comments, there have been some caution and suggestions for sanitary napkin project. The comments are as follows:

1. If we have enough funds, we can consider providing the raw material expenses.- **Aarti**
2. We should consider giving raw material support for 1 month so we can check how they are progressing and decide on more support in the next installment. Even though the sanitary napkin project may be for sustainable fundraising, I like the vocational training aspect since those kids would really appreciate it!- **Vinod**
3. Not Sure, need to discuss more.- **Neha**
4. We can initiate the start up for this project by giving funds for the machinery and set up and others listed above. Once the personnel are adequately trained, we can send some more funds.- **Anusha**
5. Recurring monthly expenses may be discussed later after monitoring progress of machinery set up and training- **Suchi**
6. What are the miscellaneous expenses? Do we have a potential guess?- **Nikitha**

Based on these questions, it appears we can release funds for annual budget worth of **Rs. 6,52,000**. We can send first half of the installment now.

For sanitary napkin project lets go with consensus and release funds for machinery and training. Once it is installed and set up, we can re-review their funding need and get more clarity about their raw material needs, what are misc expenses and so on. Lets release full amount worth of **Rs 2,83,735** now. If any suggestions, please let the group know.

Rohil, Aarti, Vinod- Please check with Manasa regarding their ENT needs based on comments above. We can add ENT expense if they need. After these steps, one of you can initiate release of funds for the amount of **Rs 6,09735** (Half of regular expense + Sanitary napkin project).

Thanks everyone for helping in making the decision.

Regards,
Prasoon.
