

Manasa Approval Minutes 2014

Total votes: 19

Q. Can we fund Manasa as emergency fund from Asha Purdue for construction of wall for children's safety?

Yes: 16

No: 1

I need more Info: 2

Additional information was provided to two members who were not sure about the issue.

Q. How much funds do you agree Asha Purdue should send for this purpose?

\$1600-- 2

\$2500-- 5

\$3200-- 9

Other amount-- 1

Voted for not sending funds at this time- 2

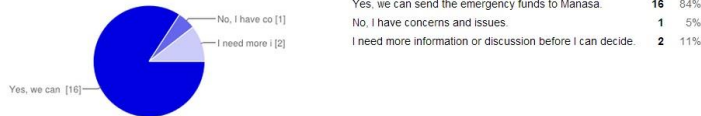

Clearly most of the members voted for sending \$3200, while about 7-8 people voted for lesser amount.

Summary

Can we fund Manasa as emergency fund from Asha Purdue for construction of wall for children's safety?

How much funds do you agree Asha Purdue should send for this purpose?

Any Comments, suggestions or questions?

I support strongly to send the money for the emergency funds. Since Asha Purdue is supporting this project for the past 2 years, I think it is our responsibility to take care of the safety of the children involved. Currently we have enough funds in our account for this academic year. So I support sending the urgently required amount to Manasa and at the same time monitor their progress with construction. I missed the last meeting. If there was a presentation summarizing the minutes of the meeting, please send me the same. I would suggest holding another meeting to discuss the exact nature of the urgency. Isn't 6-7 lakhs a little excessive for wall construction? Although the motive is great and I would personally support the initiative, I am not convinced that making a capital investment on infrastructure is one of Asha's core principles. My suggestion will be to conduct private events to generate the required money for donation. Amount to be sent depends on the requirement at the time not any random amount. I vote for sending emergency funds to Manasa at this time for construction purposes as its urgently needed and if not sent can affect proper functioning of the school and in turn affect kids.
