ASHA FOR EDUCATION – ST. LOUIS
P.O. Box 322, New York,
NY 10040 -- 0322.

Dear Sir/Madam,

Sub: **Request for Sponsorship towards Recurring Expenses for Abandoned Shelter Home at Aminjikarai Centre**

Greetings from Hope Public Charitable Trust. We submit our humble thanks for the entire team of "Asha for Education", Volunteers and Well wishers for the continuous guidance and support rendered to our organization.

We are running a Shelter Home for the Abandoned Special Children. You will be happy to note that the Government of Tamilnadu has entrusted a residential centre at Aminjikarai to our trust. At present a strength of 40 Special children are been taken care at Shelter Home premises in the age group from 13 yrs to 45 yrs these children are referred by "Police Station" & Child welfare Centres.

We seek your support towards the sponsorship of requirements for our Shelter Home Centre. Your valuable contribution will enable our trust to run the various welfare programmes more effectively, efficiently and to carry on our future plans for expansion.

Our trust expresses deep gratitude for your support during the last couple of years. You will earn the gratitude of hundreds of "God's Children". Only through such acts of kindness, we can make this world a better place even the disabled to live in.

The Budgetary Estimate report is given at the attachment for your kind reference.

We look forward to your valuable support.

Thanking you,

For HOPE PUBLIC CHARITABLE TRUST
V. N. Mani
Managing Trustee/Treasurer

Essential Reasons for the NGO's Eligibility to receive the Fund

- ❖ Though the disabled people constitute 10% of the population, there are not enough schools or training Centres to develop their talent skills and abilities.
- ❖ Among the disabled, the Mentally Retarded are the most neglected section. While the physically disabled can be almost made “Normal”, with the help of various gadgets and equipments the development of the Mentally Retarded has limitations
- ❖ In spite of this, Hope Trust has come forward to take care of these “God’s Children” and make them also useful citizens. Though we want to admit more children and expand our activities, we are unable to carry out our programmes due to paucity of funds. Our dream project is to set up a Training Cum Production Centre, so that those children are socially and economically rehabilitated. We carry on our services with the hope that better days will dawn for the disabled.
- ❖ Hence, we appeal, to consider our humble request with due sympathy and help us “to make this world a better place, even for these disabled children”.

AIM:

“OUR AIM IS TO MAKE SPECIAL CHILDREN TO LEAD AN INDEPENDENT LIFE WITH INCOME GENERATING SKILL.

OBJECTIVE:

INCOME, EMPLOYMENT, ECONOMIC GROWTH AND INNOVATIONS FOR SPECIAL CHILDREN
The mode of dependency should change as independency

Special children → No. of Beneficiaries

(a) Residential Centre at Aminjikarai – 40
Total - 40

The aim of this project is to prove that they too have the potentiality and capability to lead their own life independently by learning vocational skill and daily living skill through proper guidance and training.

OUTCOMES OF THE PROGRAM

- Can learn independent life leading skill
- Income generation skill
- Motor Operating skill
- Self accessibility skill

VOCATIONAL TRAINING

Vocational skill engages their brain to think. As we know recreational activities & exposure visits will make the inmates feel mentally and physically better. They also get an opportunity to know about the outer world. It also engages their mind with work allotted and not to misbehave.

GARDENING:

We train our inmates to maintain gardening because it will enhance their peaceful mind and psychologically it improves their brain function. Frustration and anger can be released through gardening. This skill development will lead to a greatest sense of personal value and self esteem. Through this they also contribute for the pollution control and support for the green globe.
