PROPOSAL

Goal :

To rehabilitate the Special children in their (Residence). The special educators go to their house to visit and giving training to the special children and guide and counseling to the parents also.

As usual the programme is unique for every child, so they are giving child centered programme for each and every child, (IEP) at least monthly ones they are visit the children and refresh their skills and train the parents.

Programme:

The special educators go to the children's residence and refresh their academic and self care skills depends upon their need and profile. And the special educators will give training and counseling to the parents.

Mode of Transport :

When they go to the home based training travel by bus is so difficult, some children are living in interior village also, there are not frequent bus service it is so difficult so they cannot choose the bus for travel. Already our teacher's are travel by the two wheeler in last days, but they have met an accident and one teacher also get back pain, so now we have planned to travel by the van, it is easy to meet the children in every area.

Salary :

Even only they are going to the house visit also consume the whole day so they are working full day basis. So we have to give them atleast Rs. 10,000/- per month. Additionally we need a driver and fuel also. So please consider our situation and support us in this pandemic period.

Construction:

Our kitchen construction is completed in Roof concrete level. Remaining works are here I have enclosed the quotation.

Occupational therapy materials:

Now we need occupational therapy materials, but now the school is not open, so I think we have to purchase the OT material in future after open the school.
