I visited Sharon School on the 5th of August. I met with the founder of the school Ms. Prema and spent time talking with her on how the funds that were provided by Asha Toledo Chapter have helped the school meet some of her most critical needs. I went around the school and observed how the items are being put to use. The desktop is used by her to manage everything about the school be it keeping the records of all students or managing the school budget/ expenses. I also noticed that the exercise equipment is being put to use on a daily basis as well. The steel bureau is already full to its capacity as it is being utilized to store all sorts of school supplies and documentation.

While she thanked for the generous contribution, she has an ongoing need for the monthly maintenance of the school. Even last month, due to shortage of funds from on which she relies on, she had difficulty in even paying the monthly salaries of the staff. So, she would greatly appreciate any kind of regular funding that could be provided on a monthly basis. This money will be used in paying salary for the teachers, transport for students from their houses and the maintenance of the school.
