Glory of God

Respected madam/sir, Greetings from Sharon special school. I am glad to meet you all through this report.

Last year 2020 April to March 2021 make the whole year we couldnot run the school due to COVID 19. But we are connecting with our children and Parents in this period.

On Sep 2020 onwards we were ,meet the children through the house visit, the 1st visit only we are counselling the parents for the hygine and precautions and pre medication for the Covid 19.

We have 65 children in our school all are in and around rajapalayam and near by villages some children are living in the interior villages also, so we couldn't meet frequently but weekly tries our staff members are visit them, 2 month ones. when they visiting time they are reminding and refreshing their regular academic skill and training to their parents. I will send the photos and videos for your information.

Nutrition food Distribution:

We have distributed nutrition kit with the help of Redington foundation (like, Dates, Ground nut dried , ginger, peper, green gram amla with honey (chavan Prash immunity Booster) for our children and sanitary kit (Hand wash, mask, sanitary napkins) and immunity Boosters are given to them with the support of Redington foundation.

Acheivement of our Students:

On Sep 16th to 22nd 2020, our Children Jeyapandian, Ramasubramaniam, S.Suresh and Packyaraj are attended the 8th std exam at Sivakasi with the support of Scribe, the government has arranged the scribe and our staff Mrs.Suthandrakani has trained them again in the period of August to September , By the Grace of god all are passed the examination. In this pandemic period the government has given all pass for the school students. But our children are appeared the exam in the private mode, so they have not get all pass system. They all are physically appeared the exam and passed it and get good marks also.

Cleaning and Maintenance:

Weekly twice we are cleaning and maintaining our school. After the lockdown we have suffered lot due to the Rat in our school. They damaged all the teaching materials, flash cards, pictures. So regularly we are maintaining it.

Garderning Project:

In the Pandamic period we have tried to cultivate vegetables in our house, and grow bags that has given a good experience and pleasure to us. We have earned very leaser amount through the vegetables it was very useful to maintance in that time. So we have to decide that continue to do the project.

Terrace Garden:

Now we are planning to start the terrace garden in our school, I hope it will help to maintain our building and least support of our financial crisis. We have get the financial support from Asha only.

Construction Project:

Already I have informed to Asha in last two years proposal about our kitchen building. It was in very damaged and dangerous condition, because it was built in 2005 when the time of our 1st construction period. It was build for the cement storage room for the construction time, so we make that room in temporary purpose for the construction without the foundation and we make it only the halo blocks and Asbestos sheet.

So now it was very damaged we couldn't use it in future, so I am in the critical situation to construct the kitchen. but I have no money for that even though I must construct it, this is the right time for that.

So I have start the construction work with little bit amount, I hope god will help us. I have arranged some loan from my friends circle and I have apply the bank loan also but till now I didn't get bank loan , But I hope so if it possible we are expecting support from Asha. Now we have planned to construct the portion two rooms its only the vacant land in our school campus. so we must construct that portion in two rooms one is the kitchen the another one is store room. so please help us.

In that pandamic period Asha only given to us hope and courage, so always I am grateful to Asha . If Asha didn't support us our situation is very pathetic. So thaks a lot for Asha.

Motor Problem:

In last days we have met a problem in our compressor motor and pipe line, In 2005 we have borewell for 580 feet for ground water, but due to financial problem we couldn't erect all the portion. So when that time we erected only 250 feets. but now we must erect all the portion.(Total depth 580 feets) otherwise we will lost the borewell. So now we have to erect 480 feets remaining portion has closed. (lost Already).

New Motor:

Now we have bought a new motor (submissive motor) for that .It is less maintenance than compressor motor.

Financial Problem:

Now the school has not opened, the govt has not given the permission to open the school. so through out of the academic year we have not open the school and we didn't appoint any new staff, so we didn't appoint speech therapist and occupational therapist. But Asha has given the salary (periodically) for them, so I have keep it in bank safety.

Now we are 8 staff only working in the school.

Special Educators – 3

Physiotherapist - 1

Watchman - 1

Helper (Male) - 1

Helper(Female) – 1

7

Another Seven staff are temporarily relief their job and adopt another jobs. After (Lock Down - Covid 19) reopening the school . All are come and join their job.

Now here in India, the Govt announced the Lock down Night and Whole Sunday.

FCRA A/c Opening:

I have submitted all the papers with the application for account opening in Delhi, But they informed some discrepancies for that one by one totally three times. I have rectified all that with the guidance of bank officers finally I and bank officer submitted. So we are waiting for reply when will get the reply , I will inform you.

Salary Details:

I will send all the salary details with this report and proposal also, I am extremely sorry for not making it on time, I was sick frequently so couldn't send the report on time.

Thank You,

Your's Faithfully,

Sewa 30/4/2021
