

Project title:

Construction of concrete roof, replacing damaged Tin shaded roof of the existing Kitchen and dining room of preprimary education Centre at Canning and Ghutiary Shariff.

Project back ground:

Digambarpur Angikar has been running preprimary education Centre for 210 children's of 3-6 years of socially excluded community at Canning, Ghutiary Shariff and Mallickpur. The centres kitchen and dining room are in the temporary shed. In the rainy season or in summer we are to face critical problems. Natural calamities visit the area frequently. In this situation we intended to construct a semi-permanent infrastructure for children at Canning and Ghutiary Shariff. This proposed infrastructure will ensure child protection and childhood development for the target communities in hygienic environment. Mothers of the babies will also be relieved from the anxiety to see their babies in safe place.

Present Challenge faced:

On 20th May, 2020 super cyclone 'Amphan' devastated the entire life and livelihood of the people living in Sundarban delta region under North and South 24 Parganas District of West Bengal. The cyclone devastated the entire Sundarban region and more than 15 million people are affected and a million of kachha houses are damaged or destroyed including our tin shaded roof of pre-primary kitchen and dining room. The Sundarban people have not seen this kind of disastrous cyclone before in their lifetime along with the deadly virus this cyclone took many of the livelihoods.

Propose immediate Solution:

As an immediate need to continue our existing pre-primary kitchen and dining room and on behalf of safety and protection of the children, we would like to construction of a full concrete roof for the existing pre-primary kitchen and dining room. It is expected that this should work well as a preventive measure for natural calamities further. The measurement of existing pre-primary kitchen and dining room is length 40ft and width 25 sq ft. Total -1000 sq ft area of two center's at Canning and Ghutiary Shariff.

Objective:

Cconstruction of a full concrete roof of the existing pre-primary kitchen and dining room, replacing partially damage tin shaded roof;

Propose project Plan:

- Step :01: Prepare of a overall estimate for the concrete roof construction [Already done]
- Step:02: Prepare a detail cost analysis plan with help of an experience Engineer[Already Done]
- Step: 03: After sanction the project, start renovation work.
- Step: 04: Temporarily shift ongoing school activity at some other safe place.
- Step: 05: Continuation and completion the said work with strong monitoring to ensure quality.
- Step: 06: After finished all construction and related works, inaugurate the construction in presence of Donor, Community, Government and public representatives.
- Step:07: Continue ongoing preprimary education under the newly constructed concreted Roof

Time Frame: Six months

Propose Activity	Time Frame[Month wise]			
	Month:01	Month:02	Month:03	Month:04-6
Prepare a detail item wise cost analysis plan with help of an experience Engineer, as per sanction Budget				
Selection of vendor and mason through at least 3 quotation				
Purchase of quality Raw materials [Cement, TMT Bar, Sand, Stone Cheeps etc]				
Start and continuation renovation/ construction work				
Finish all related works				
Inaugurate the new pre-primary kitchen and dining room in presence of Donor, Community, Government and public representatives.				
Continue ongoing school under the newly constructed concreted Roof				

Outcome of the project:

- Students will continue their education with in a safe place.
- Ensure safe and full protection of children and teachers.
- Minimize tension and fear among the Guardians.
- Increase student’s strength and reduce rate of school dropout.
- Reduce chances of further damage from any types of natural calamity.

Donor Visibility:

- Donor’s name and logo will be use in project level interventions and one signboard with Donor’s name & logo will display outside the pre-primary kitchen and dining room for wide publication.
- Donor’s name & logo will be added in existing Organization Website.

Estimated Budget:

Canning Centre: 1000 sq ft x 500 per sq ft = Rs. 500000

Ghitiary Shariff Centre: 1000 sq ft x 500 per sq ft = Rs. 500000

Total Grant Requested: Rs. 10, 00,000 (Ten lac only)
