All,

Saugah received 7 votes, all approving funding them for 2016 for Rs. 5,00,000. Saugah's proposal has been approved for this year.

Thanks to everyone who voted.

The Annual Progress Report has a wealth of information. I was so impressed with the results of this project, and I have certainly understood even more how critical our funding support was and continues to be for them.

Asha SF folks - we should be so humbly so proud!! We've created a really difference in the lives of this tiny village. The project partner NGO deserves all the recognition for the work actually being done, and at the same time, we should feel awesome for being one very important agent of this change. I'd like to quote the partner

"Currently the project in Path village is highly visible in the rural area. The implementation of this project for last 2 years (since June 2014) has brought a substantial change in the outlook of the community people towards the education of little children. In fact our target group children have always been the down trodden and under privileged tribal children who previously used to roam around the forest fringe areas. Even today it is a normal scenario in many other villages in our rural belt that the poor children are roaming here and there unprotected and playing in the community by wearing rotten garments, half naked, bare footed. In this circumstance the AshaSF project has brought a visible change in the habit of the children of the project village who are eager to go to our school regularly. The children have learnt English alphabet and can read and write from A to Z. They can also count and can write numerical from 1 to 100. It is wonderful to see that they know the names of various fruits, vegetables, animals and can easily identify those things. Besides measuring these qualitative indicators of progress we can also measure our project improvement by measuring quantitative indicator. So far as the main objective of our preprimary school project is concerned, we are supposed to prepare and admit socially excluded little tribal-children in local formal primary schools for their main streaming. We are happy to mention that from our project, 15 children have been admitted in class1 in two local primary schools. A together during last 2 years total (19+15)= 34 children from this tribal community have been entered into formal primary schools. We feel; it is an important milestone that we have crossed in the very 1st 2 years of our project."

Lovely!

#1 For proposed changes, I have only preliminarily discussed these and they are supportive but have to do an extensive discussion upon approval.

#2 - Total 15 students out of 50 graduated (since they reached > 5 years.) They were all accepted to 1st grade in nearby govt. school. They have a waitlist of 21 kids for admission and they will shortlist 15 if we approve the funds. Attached is a list of students who graduated. <https://docs.google.com/document/d/1qHzIgO8Z4kMGwRb9R3kiYDIM00LTt8kRHoYUlihQD00/edit>

Hi Namita,

I'll let Abhishek respond to 1 and 2. I've attached Saugahat's progress report but it's not in the format that we are typically used to seeing. I'll work with Abhishek to get us the final progress report ASAP.

Regarding 4, I am not sure what the issue is since I am able to see the report and so is Sudeep. I have re-attached the pdf here. Let me know if you still have trouble.

Thanks.

Hi Abhishek and Shishira,

Great stuff and good progress for Saugahat! Thanks for sharing.

I have few questions:

1. You've proposed changes in structure of program and associated costs. Has saugahat accepted this modified structure?
2. Are these 50 new kids? What percentage of kids are new and what % of kids are from previous batch? Where have the graduating kids gone to - formal school? Next grade within saugahat? I tried looking but couldn't find annual progress report.
3. Can Shishira or you link the annual progress report?
4. Unless I'm doing something wrong, the link to the proposal form in this email leads to a blank form. Can you check? And resend with the filled out form?

Thanks! Great ppt.. Am excited to Learn more from answers to these questions..

Namita

All,

Please see details below of Saugahat foundation's proposal for Rs. 5,00,000, site visit, project steward Abhishek's recommendation and vote. Please review, direct questions to Abhishek and vote by July 18.

Saugahat is a relatively new project for Asha SF, this is the third year are considering them for funding. They are based in remote Jharkhand and run a pre-primary school for children 3-6 years old. Abhishek has done a fantastic job organizing a site visit for this remote location and coming up with a recommendation. Thanks Abhishek.
