

Cyclone Fani Immediate Relief Funds – SAIS Basundhara

This estimate of the requirements is prepared after the call with project partner on May 11th, 2019. We are waiting for the final estimates from project partner. The disbursement is meant to be used for the immediate requirements. If this disbursement exceeds the final estimate then the extra funds will be used for the regular disbursement for SAIS Basundhara residential school. If the final estimate is greater than this disbursement then additional requirements will be first discussed within our team and another disbursement process will be started if needed.

Based on the call, we have made the following list of requirements and estimates:

- Generator
 - option 1 - 3.5 KW, about INR 50-60K
 - option 2 - 5 KW, about INR 1 Lac
- Overhead water tank - INR 25K
- Electricity restoration - 3-4 poles - INR 40K
- Boundary wall (long term) ~ INR 6-7 Lacs
