

Friends Tuition Centre Report of academic year 2014-2015

Paripooranam K Dated: 25 April 2015

Background

Seeyapoondi is a small village with approximately 500 households. It is in Villupuram Dist. about 10kms from Melmalayanur. The children go to high and higher secondary classes by govt. buses which has only two services once in the morning as pick up and another in the evening for dropping the children. The village does not have any common place to come together after their work. There are approximately 10 SSLC students passing out in the village every year. They also do not have any common place to study or learn more. The 10th students who wanted to go for after school tuition for their extra learning, could not go because their safety issues. So we thought of starting a tuition Centre for the children who are doing their SSLC.

Year end report

Last June I had given the proposal for the Friends Tuition Centre for the academic year 2014-2015 to Asha for Education. For the amount of Rs 1,00,000. It has approved by Asha volunteers. I introduced new games in English and mathematics. it helped 6 th 7th children to improve their English skills, especially in spellings. I have bought mathematical games they played and learnt the fundamentals. This year we had difficult children in Sslc. Some of them had a difficult in basic maths, We trained them only few compulsory question to make them pass. They finished their exams waiting for the results. This year I dint take 6th students due to the lack of space. Still there is a demand from the children. due to the personal instability of work I could not continue the library process, now I have settled again in Marudam I am taking it on for the next academic year. The SSLC students have been finished writing their exams on April 9th . While they were studying intensely for their exams, we had given holiday for the other students. And we provided evening snacks only for 10th students.

Proposal For Academic Year 2015-16

- To improve the quality of education in both Tamil and English in our tuition centre, we would like to introduce some bi-lingual books, so that they will get a chance to see both languages in same book.

- We would like to encourage the children to do social service. As part of that we would like to make an education cum service trip to Thiruvannamalai to do planting in the Arunachala hill, in the rainy season.
- Since we feel the qualification of the teachers, I have planning to appoint two new teacher for the tuition centre, they will be teaching English and mathematics.
- One of my teachers going to go to the school as part of Sangamam project.
- We have introduced computer last year but unfortunately before we setup the system the cat knocked off from the table, the cpu is broken.
- If e introduce the computer it will be very usful for all the children. They can learn more English and be familiar with a language. It will improve the quality of education and awareness of computer system.
- We are having plan to put one teacher for the Seeyapoondi Primary school. The school has totally 60 children from the same village. According to the government register 3 teacher should be working, but now there is only two teacher are there , one vacant. Between 2 teachers one teacher is pregnant leave, so one teacher from Mananthal middle school replacing her the period of time. However at least two classes for day is running without teacher.

Number of children class wise;

STD	NO. Children	Teachers
I	7	Manimaran H.M
II	14	
III	12	
IV	17	
V	10
