

## **Friends Tuition Centre Report of academic year 2013-2014- Paripooranam K**

Dated; 13 April 2014

### **Background**

Seeyapoondi is a small village with approximately 500 households. It is in Villupuram Dist. about 5kms from Melmalayanur. The children go to high and higher secondary classes by govt. buses which has only only two services once in the morning as pick up and another in the evening for dropping the children.

The village does not have any common place to come together after their work. There are approximately 10 SSLC students passing out in the village every year. They also do not have any common place to study or learn more. The 10<sup>th</sup> students who wanted to go for after school tuition for their extra learning, could not go because their safety issues. So we thought of starting a tuition centre for the children who are doing their SSLC.

### **Year end report with accounts**

Last June I had given the proposal for the Friends Tuition Centre for the academic year 2013-2014 to Asha for Education. For the amount of Rs50,000. It has approved by Asha volunteers. I started the work in the month of October 2013. First I had the roof extended with thatch outside my small family tiled house which I then modified to get better space. Then we selected the teachers slowly. After the selection of the teacher and practice sessions in Nov & Dec 2013, we inaugurated the tuition centre on the 1<sup>st</sup> of January 2014 with a teacher who finished B.Sc. B.Ed. We mainly focus on SSLC students, then slowly we have opened for 6<sup>th</sup> std to 9<sup>th</sup> std with great demand from the children.

We have introduced library books for the children from Thiruvannamalai Mobile library. We do not pay for the books but bear the transportation costs twice in a month to get and return the books

Totally 42 students, with a 2 main teachers and 2 volunteer are in the Centre now.

#### **PROPOSAL FOR ACADEMIC YEAR 2014-2015**

- To improve the quality of education in both Tamil and English in our tuition centre, we would like to introduce some bi-lingual books, so that they will get a chance to see both languages in same book.
- To improve the understanding of the subject we would like to introduce mathematical and science games for the children. For example positive and negative cards, snake and ladder game, LCM,HCF games. In science memorizing symbols and formulae. To make these education games we would like to have one computer and printer, our teachers are interested and skilled to learn and make the materials in the village. Our teachers have the required computer skills.
- We would like to encourage the children to do social service. As part of that we would like to make an education cum service trip to Thiruvannamalai to do planting in the Arunachala hill, in the rainy season.
