	Email: rajaram@solnet.in , chennai@ashanet.org	Phone: 94444-04060	

Section 2 - Proposed Program Details

Asha is working with remote rural schools in the following districts of Tamilnadu: Thiruvallur, Kanchipuram, Villupuram, Thiruvannamalai, Thoothukudi and Thirunelveli. We support about 100 government primary and middle schools. Our computer teachers visit these schools and teach the children Computer Science for 50% of the time and Maths, English, Science etc. using innovative contents on their computer for the remaining 50% of the time. All our computer teachers (and also regular teachers) have a laptop with internet connection (4G through the phone hotspot). Our projects have been running for a few years and many of our computers have started developing problems. We have had to pull back some of the computers we had donated to schools and even some of the computers given to the regular teachers in order to ensure that the computer teachers get a laptop. Giving new laptops to the computer teachers will free up our resources and it will also enable the computer teachers to effectively do their work. The children going to government schools are among the poorer sections of the population in these rural areas and the better off families try to send their children to private schools.

In 7 of the villages, Asha is also running libraries. Four of these are in Thoothukudi dist, two in Villupuram and one in Thiruvallur dist. These are libraries which are used by children and a couple of the libraries are also used by adults. While we have books for the children to use, we do not have any computers or tablets in these libraries. As Asha already has access to a lot of educational contents (games, videos etc.), we can put these to good use by making it available for the children to use in the library as well. We hope to provide laptops and tablets to these libraries. We are

also planning to open 4 more libraries. These resources will be shared with the new libraries as well when we open them.

Device Type	No. of devices requested	Device Specifications if any	Proposed use	States	No. of beneficiaries	Details/Comments
Laptop	18	i3, 15.6" monitor 4GB RAM 512GB SDD/HDD	Teaching Computer Science and other subjects.	Tamilnadu	2000	Asha computer teachers are already serving 5000 children across TN. Propose to replace 18 of their laptops.
Laptop	7	i3, 15.6" monitor 4GB RAM 512GB SDD/HDD	Provide access to educational contents to children.	Tamilnadu	250	Asha runs 7 libraries. Propose to have a computer in each of these libraries with rich contents.
Tablet	14	10" Android tablet, 2GB+ RAM, 64GB+ SD.	Provide access to educational contents to children.	Tamilnadu	250	Same as above

What is the impact that devices can create and what specific age group are you working with? (Below 14 yrs, Between 15-21 years; above 21 years)	Make the children comfortable with technology. Expose them to programming. Provide alternate ways of teaching/learning than the routine rote learning. Age group : 6 to 14 (primary and middle school children)
Please share your distribution plan and timeline (Logistics of distribution, monitoring process, and timelines)	We will be able to procure it and give it to our teachers and libraries as soon as the funds are made available.

Section 3 - Proposed Budget

	Particulars	Units	Total Qty	Unit price (INR)	Total Amount (INR)
1	Purchase of laptops	25	25	32000	800000
2	Purchase tablets	14	14	12500	175000
3	Accessories for laptops (speaker, mouse and bag)	25	25	2000	50000
	GRAND TOTAL				₹ 10,25,000
