Dear all,

STEMLand will be extending its reach to the Isai Ambalam school. They will be working with close to 160 children from 3rd to 7th grade (they presently work with children from 7th grade onwards) at Isai Ambalam. The requirement is ~2.55 lakhs for:

- running expenses - new material, wear and tear and emergencies (average Rs.10k/month): Rs.120,000
- Support for a lab coordinator at Isai Ambalam for the first 9 months (Rs.15k/month): Rs. 135,000

Attached is the details of the expenses for last year based on the funds that Asha Bangalore sent. Please vote.

Thanks,
Atrei
