

Navjyoti budget poll 2015-16

Hey everyone,

Navjyoti's budget needed an update after it was put for vote. After a couple of rounds of discussion with the project partner in India, a need was identified to support the training work related to Right to Education act (making villagers aware about the law that mandates that every child is entitled to receive basic education) and Rural Employment Guarantee Act (making villagers aware about the law that assures every villager around 100 hours of paid employment during periods of unemployment). This was part of previous year's budget but had been left out in the current budget.

So a proposal was put forth to continue supporting the salary of two key people involved in this training work and helping run the information center set up by these two coordinators for providing information to the villagers. This is an addition to the original budget proposal. So an **additional amount of Rs. 186000 or \$3100 approx. for one year** has been added to the budget now. The new budget has a **total amount of Rs. 1560400/-** for the year 2015-16 (approx. **\$26006** with conversion rate of \$1 = Rs. 60). The new budget is attached.

Please cast your votes on this new budget using the form below.

Thanks,
Chandan
