Application for Financial Assistance

Dear Asha for Education – Boston Chapter,

As Director of Kalkeri Sangeet Vidyalaya (KSV) I would like to present to you our proposal and request for financial assistance for the organization. This is the second year that KSV is applying for funds from Asha for Education – Boston Chapter.

We believe our proposal is worthy of your consideration. KSV is a special school because as well as academic education, the school offers its 255 students a thorough training in Hindustani classical music, and/or Kathak dance. We view this as an empowerment tool for these socially and economically marginalised young people which offers them the opportunity for a better and brighter future.

In addition to the academic and performing arts education, KSV offers board, lodging and health care to its students – all free of cost. Since the inception of the organization in November 2002, we have seen a remarkable transformation in the students as they have progressed through school, college and university. These young adults, with great prospects, are now engaged in respectable and dignified employment. As we all know, education is the key to ending the cycle of poverty.

Today we are asking for your assistance in order to conduct operations for the school for the academic year 2018-19. This much needed funding will enable KSV to continue to provide and improve upon the services we currently offer to these deserving children within the areas of academic education, music education and healthcare.

We very much hope that we will receive a positive response to our appeal. We are looking forward to hearing from you, and in the future entering into a long-term professional working relationship with the Boston Chapter of Asha for Education.

Should you require any further information, or have any queries, then I remain at your disposal. Please rest assured of KSV's enduring commitment to the children of the institution and the vibrant and diverse culture of India and Karnataka.

Yours faithfully
