I have visited the rescued children from Ibrahimpatnam orphan home are kept at Vyyuru S.R.C. hostel, All the children are malnutrition and suffer from skin and other diseases severely. All are required medical help.

S.R.C. is financially in a difficult situation to feed and give medical help to the children due to a lack of financial help from the Government. Officials were promised orally at the time of children transfer procedure, but practically that is not that much easy to get government funds. Individuals can help for a day or two. I hope the Organizational help is relevant and urgently required to S.R.C. to come out from this grim situation.
