

Shaktidhama Budget Request

04/10/2019

The Ask

In dire need for a van to transport children between school and residence.

Will also help getting the children to expose them to CCA.

Currently at the mercy of local police SI to provide police van for transport.

SD is at a very high traffic state highway with no footpaths, children cannot walk that road.

No public transport in the region since it is along the outskirts of the city.
