Summary of Academic Year 2024-25

Asha for Education has been providing Digital Literacy and Computer Science training to twelve schools in Rajatalab area in UP. With knowledge of Computers becoming an important part in everyone's life now, Asha's initiative in providing computer education has been well received and appreciated by students, parents and teachers. The students display tremendous enthusiasm in learning computers

Asha has a well designed Computer curriculum supported by detailed lesson plans that the teachers use to impart computer education. Asha also conducts regular training for the computer teachers to keep upgrading their skills

Events of 2024-25

Some of the major events of the year include

- Conducting Oral assessment for the students in English, Maths & Hindi
- Conducting written assessment for the students in English and Maths
- Conducting Computer assessment for the first time
- Initiating the students into doing Project work. The selected projects will now be show cased at a special Asha Impressions event to be held in the next few months at Rajatalab
- Providing regular training to the teachers, by one of the senior lead teachers from Chennai.
- Yearly Computer Science training for teachers held over 3 days
- Teacher Excursion

Teacher Training

Training for all the teachers has been going on periodically, typically half a day once a month and periodic hourly session on week days,

Student Testimonials

Below are testimonials by a few students. The actual video files have been attached separately

Progress and Performance

Oral Assessment

We conducted Oral assessments in English, Maths and Hindi in the month of October.

In Maths there was a drop off about 3% in the overall scores compared to last year. However, the average of all the Rajatalab schools was higher than the average of all Asha schools who took the test.

In English there was a drop of about 4% in the overall scores compared to last year and lower than the average of all schools.

In Hindi there was drop of about 4% in the overall scores compared to last year. PS Bhikaripur, CS Harsos and PS Rampur did better than last year,

Written Assessment

We conducted written assessments in English and Maths in the month of February' 25

In Maths there was a drop of almost 5% in the overall scores from last year, but it was slightly better than the average of all Asha schools who took the test

In English there was a drop of almost 4% in the overall scores from last year and also the scores were significantly lower than the average of all Asha schools

Computer Assessment

This was the first year of computer assessment at Rajatalab . In absolute terms the scores were average and significantly lower than the average of all Asha schools. Class 5 was comparatively better than class 8

The detailed analysis of the assessment results is in progress and is expected to be completed by end June. Will be sharing the detailed analysis identifying gaps, with the schools after that
