

Timestamp	Email Address	Do you approve Nandlal-SUPPORT Public School as a new project for 2022 for INR 25.4 lacs as per budget proposal?	Why ?	Do you have any comments for Nandlal-SUPPORT Public School.	Do you have any comments for the project steward.	Do you have any concerns with the project.
3/24/2022 10:12:54	rangakrishnans@gmail.com	Yes	A great initiative to bringing about quality education in rural Jharkhand to underprivileged and underserved communities. It is a relatively new school and with Covid-19, teachers were paid at 50% salaries and their main source of income of tuition has been impacted. They have demonstrated good fundraising capability with their development efforts and tie-ups with Tata Trust, NABARD and UNDP, and hopefully over the next 5 years, they should be in a good position with this school.	Keep up the good work. Teachers are highly motivated and travel 30 km one way each day. Students are excited to learn. The site visit was very well organized. Hopefully the Covid edu gap can be improved upon over the next few years.	It is great to have you as project steward for this project. Thanks much for getting on board pretty quickly, maintaining good communications with project partner and looking at CSR options for their computer lab.	Student dropouts due to inability to afford tuition fees needs to be managed and the students need to come back to the school. Increasing outreach and getting families with 3+ kids to come to the school.
3/24/2022 11:33:11	subravnanthan@gmail.com	Yes	Great project, new project in a new state for Austin chapter. Very responsive steward. The virtual site visit was impressive with regard to the mission, objectives and commitment of the project partners and the community it intends to serve. Starting with 300+ students now with plans to grow the school size to 1000+, the SUPPORT team has shown the commitment and the wherewithal to execute this project well.	Wish them great success and undertaking this mission to provide hope for a better future to the young children of the community through education.	Thanks Raghu for accepting stewardship of this project. Your enthusiasm and initiative are very inspiring. Wish you great success and satisfaction for your volunteer efforts.	None at this time
3/25/2022 6:26:04	raghunathsrao@gmail.com	Yes	High impact project run by well-run NGO	None	None	None
3/28/2022 11:56:26	shrutimotiwale@gmail.com	Yes	They already know the geography well, and are now reaching into education field. So we are a very good organization to help them achieve their goal well. All the teachers were very happy with their job, children were eager to learn. This signals at the quality of school, quality of education imparted and the potential to make a real impact. Also, new state for us and new project partner for Asha.	Should take drop-outs due to covid very seriously and try to integrate all the dropped-out kids ASAP. The more time the kids lose over the already lost time, the more they're losing every passing day. Should increase efforts to look for infrastructure funding and set up computer lab and experimental labs. Can get guidance from GSK regarding use of experiments and practical exposure to understand subjects at a conceptual level. I also didn't come across any mention of subjects other than mainstream subjects, such as music, drawing, arts and crafts. School should look into integrating these subjects as well.	Very well organized site-visit.	No clear plan mentioned for increasing enrollment, would like to see more details of this over time. Inclusion of wider array of subjects is also needed. Super-high focus on english seemed a little unnecessary, Hindi should be equally encouraged for effective survival in India, but this could also be my personal ignorance.
4/5/2022 11:54:10	krutibak@gmail.com	Yes	the funding will help continue the education of children by supporting the salaries of the staff	NA	NA	NA
4/6/2022 11:44:08	rite2mohit@gmail.com	Yes	The school is a beacon of quality education in rural area.	I would like to commend the team in raising the bar in rural education. To broaden their outreach, I would like the team to help neighboring schools government and private to become better so more kids get the same quality of education that they are imparting.	Thanks Raghu for taking on this project. It will be a wonderful journey for you and us in Asha Austin	One concern is children are not able to attend due to their inability to afford the current fee. I do have faith in the school administrators that this will be resolved as they are coming out of pandemic situation.
4/6/2022 11:50:05	ramana.shruti@gmail.com	Yes	Since the expenses will be towards hostel infrastructure it will immensely help the students traveling from distance.	-	-	-

4/6/2022 12:11:57	subhangi.g@gmail.com	Yes	I really liked the virtual tour of the school. The school building looks good. Interacting with the teachers and students highlighted that obtaining a strong schooling in childhood was a focused goal for everyone. The few parents that we heard from impressed on me their determination in providing a quality education for their children, and despite financial challenges they are trying their very best. The teachers salaries are unbelievably low. I feel this is a great opportunity for Asha-Austin to make a difference by partnering with Nandlal SUPPORT public school and support them in meeting their goals, and helping the families of these kids towards getting them that quality education. It is also a new project to Asha and Asha-Austin should pick it up because it has potential.	Your mission made a strong impression on me. Good luck in advancing towards the goals you want to achieve.	Great job Raghu in coordinating the virtual tour. It really helped me understand what Nandlal SUPPORT school was about and the work that they are doing. It's a great project to steward. Good luck.	Not at this time.
4/6/2022 15:44:53	prasen.biswas@gmail.com	Yes	All the needs are justified	They are doing great job for the advancement of the students	Thanks for your relentless efforts	No
4/6/2022 18:40:58	suchithra.ramaswamy@gmail.com	Yes	This is a great initiative in a rural school who have shown great outcomes.	None	None	No
