

I, Anilkumar, brother of Jayaprakash, Asha coordinator Kansas City Chapter, reached campus of the Wayanad Girijana Seva Trust in Wayanad on 12 August 2025 for reporting the necessities of the funding the trust on a project submitted with Asha for Education USA

I was cordially welcomed to their office by Mr. Baburaj O M and Mr. Rajeevan B V,, the Managing Trustees of the trust and we three. moved around the for a while and reached the computer training centre on a 3 tier block from where the proposed training C-DIT training for 30 matriculate youths proposed to be held.

The centre was too spacious and properly ventilated furnishing and equipped with 30 laptops allowing space for easy access near to every trainee while the class runs by the trainers. I could also have interacted with two women staff at the office who were the candidates of the last batch and later was inducted by the trust. According to these two, most of their batch mates are now working in different sectors and earns for a living.

Therefore, I recommend that the granting required funds to run the proposed project to the trust that act would be on boon on these 30 under privileged youths.
