

Asha Mirzapur Project

Uttar Pradesh, India

Progress Report H1 2025-2026

Summary

Asha for Education has been providing Digital Literacy and Computer Science training to seven schools in Mirzapur in UP with the help of 3 teachers and one project coordinator, impacting around 950 students. With knowledge of Computers becoming an important part in everyone's life now, Asha's initiative in providing computer education has been well received and appreciated by students, parents and teachers. The students display tremendous enthusiasm in learning computers

Schools supported by Project Mirzapur, UP

1	PS Patihata	80	73	153	Deepak
2	PS Bhurkura	41	55	96	Deepak
3	PS Semara	47	48	95	Nitish
4	CS Imilia	81	102	183	Nitish
5	CS Kamalapur	94	73	167	Arun Kumar
6	PS Bagheree	38	32	70	Arun Kumar
7	CS Jamuhar	87	82	169	Arun Kumar
	Total			933	

Asha has a well-designed Computer Curriculum supported by detailed lesson plans that the teachers use to impart computer education. The classes are held by our teachers for 2 to 3 days in each school depending on the strength. The above table gives the school strength and names of teachers going to different schools. A weekly progress meeting is held with the steward and the lead teachers where each teacher discusses the progress in the previous week and the plan for the following week.

A few photos of classes in progress is given below. Two videos of classes in progress have also been attached separately.

Class 1 PS Semara

Class 8 CS Imilia

Class 1,2 CS Imilia

CS Jamuhar

PS Bhurkura

Oral Assessment

Oral assessments were held in all the schools in October. The assessment covered Math, English & Hindi

Computer Science Training

All the Mirzapur teachers along with the project coordinator attended the annual Computer Science Training held for all Asha Computer in Tiruvallur, near Chennai from 17th to 19th Dec.

Other Activities

1. Asha Project Steward, Sriram and lead teacher Jayalakshmi visited Mirzapur on 6th August. It was scheduled to be a two-day visit but the schools were suddenly closed due to floods, so we reduced it to one day. Met the teachers in the Asha office and reviewed the progress and also discussed issues faced.

2. The teachers are undergoing skill upgradation training programs in one of their chosen areas. The areas offered include – Scratch Programming, Web development, Physical computing etc. These sessions are held over google meet once or twice a week

3. A monthly training program is also conducted by one of the lead teachers.

4. The teachers and coordinator went on their annual excursion to Kovalam and Kanyakumari in end December

5. The project coordinator, Mahendra, attended the Asha India Conference held in Tiruvallur, Chennai in end Dec.
