

SITE VISIT REPORT OF SIRISHA REHABILITATION CENTER, Gudivada

On December 2, 2025, I, Sateesh Nandigama (Project Steward), visited the Sirisha Rehabilitation Center in Gudivada. I visited the center to understand how it operates and what services it offers to the students. I also wanted to observe how the teachers and staff support the students.

Facility Overview/ Staff and Students: I toured the facility and was impressed by how clean and well-organized it was. The center has 8 teachers and staff working with 30 students. The staff is really dedicated and focused on helping the students do their best.

Transportation Services/ Physiotherapy: The center offers auto service to pick up and drop off students, making it easier for families to access the center without worrying about transportation. Physiotherapy services are provided to the students, which is an important part of their rehabilitation.

Diet / Interaction with Teachers and Staff: The meals provided to the students are nutritious and well-balanced. The center makes sure that the students receive proper nutrition, which is essential for their health and rehabilitation progress. During our visit, we also had the opportunity to interact with the parents of one of the students. The parent expressed satisfaction with the center's services and was pleased with the progress their child had made.

In conclusion, Sirisha Rehabilitation Center in Gudivada is well-organized and provides a great environment for the students. The staff is dedicated and works hard to support each student's needs.

With services like physiotherapy, balanced meals, and transportation, the center offers a complete care experience. Positive feedback from parents and the staff's involvement shows how the center is a top choice for students needing special care.
