

SEED - SOCIETY FOR THE EDUCATIONAL AND
ECONOMIC DEVELOPMENT (REGD.)
ANNUAL REPORT FOR THE PERIOD
June 2020 to May 2021

I. OUR MISSION:

TO TRANSFORM THE LIVES OF THE SOCIALLY ABANDONED UNCARED CHILDREN THROUGH VALUE BASED LIFE ORIENTED EDUCATION, PROPOUNDED BY MAHATMA GANDHI.

II. OUR OBJECTIVES :

Since **1982**, 'SEED' is doing yeomen service for the **children of LIFE PRISONERS, VICTIMS OF SERIOUS CRIMES LIKE MURDER, LEPROSY PATIENTS & TSUNAMI VICTIMS** by offering **Life Oriented Education on residential basis at FREE OF COST**. **SEED** has to satisfy the needs of the children by all means. In particular, their **health and educational needs** should be given more importance than other needs. **SEED** believes that the **JOB ORIENTED EDUCATION** can only make the children to be self-reliant which will really **transform the lives of the children coming from vulnerable sector** of the society.

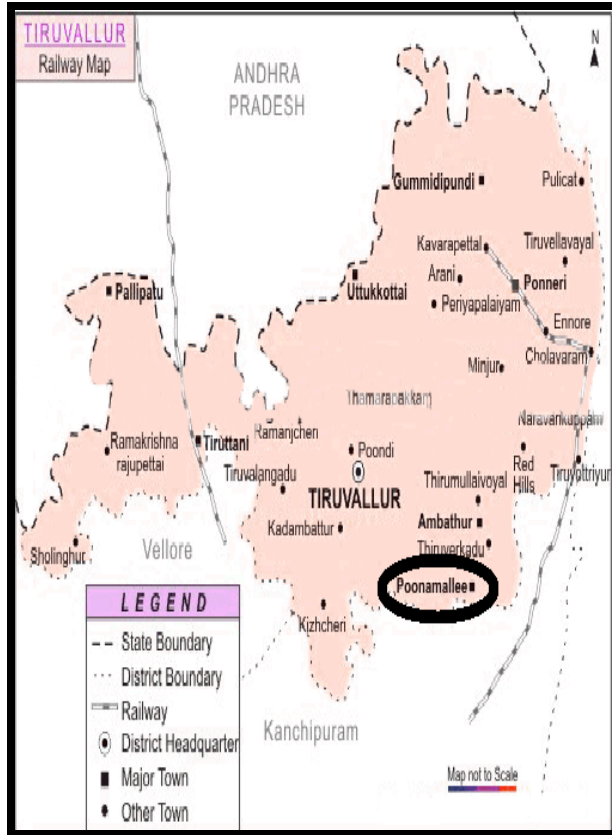

The objectives of 'SEED' are:

- ❖ To offer **Life Education, profounded by Mahatma Gandhi**, to the under privileged children at **FREE OF COST**.
- ❖ To run **Residential Primary & High School** to offer **basic education** to the children of socially disadvantaged section of the society.

- ❖ To impart **vocational skills** to the children from vulnerable sector of the society from primary level itself, so as to **enable them to stand on their own feet**, after end of their **education from SEED**.
- ❖ To run Job Oriented Training programmes such as **Industrial Training Institute, Polytechnic course, Nursing Training, Teacher Training**, etc., which will make their future as sustainable one.
- ❖ To **uplift** the children from Socially deprived families, like, **CHILDREN of LIFE PRISONERS, VICTIMS OF SERIOUS CRIMES LIKE MURDER, LEPROSY PATIENTS , TSUNAMI VICTIMS** and also the Destitute Deserted & Socially Handicapped children.
- ❖ To **focus on Health Care, Environment, Socio – Economic Aspects** of each and **every child** in **SEED** while imparting Life -Oriented Education

GEOGRAPHICAL REGION OF OPERATION OF ‘ SEED ’

Thiruvallur Map

Kuthambakkam Village

THIRUVALLUR DISTRICT AND KUTHAMBAKKAM VILLAGE

At present, **SEED**'s projects are located in three Centres, namely. **Sriperumbudur & Irungattukottai at Kancheepuram Disitrect, and Utkottai at Thiruvallur District** in the State of **TAMIL NADU, INDIA**.

III. TARGETTED GROUP :

‘ **SEED** ’ is focussing mainly on the **CHILDREN of LIFE PRISONERS, VICTIMS OF SERIOUS CRIMES LIKE MURDER, LEPROSY PATIENTS & VICTIMS OF NATURAL CALAMITIES**.

Due to **social stigma**, the **children of Life Prisoners** are excluded by the society after the **imprisonment of the bread winner of the family (father or mother)** .

‘ SEED ’ firmly believes that the **children of Prisoners, should not be punished because of the offence committed by their parents.** **‘ SEED ’** also believes that **no one in the world born as criminal. Environment / circumstance in which they are brought up, has only made them as good or bad.** If we change the environment/circumstance as good, then each and every child will become good. In the same manner, **children of Victims of Serious Crimes like Murder will take a revenge against the people who killed their parents.** Hence, **they have been brought in a changed environment** and they have also been taken care of by **‘ SEED ’** in a healthy atmosphere **to forget the past and march towards their better future.**

In the case of **Leprosy Patients** also, **children are accompanied with their parents while the parents are going for begging to earn their livelihood, which will make the children also to beg with their parents.** Hence, the **change of atmosphere, available at ‘ SEED ’** brings a change in the lives of the children of **Leprosy Patients, too, by removing the thoughts of begging from their minds.** Children from natural calamities are used to forget their sorrows and sufferings in **‘ SEED ’** by mingling with the other children and lead a new life .

How **‘ SEED ’** brings change in the lives of the children from vulnerable sector of our Society ?

‘ SEED ’ brings **change** through various **activities** carried on in its three centres, namely **1. Sriperumbudur, 2 Utkottai& 3 Irungattukottai .**

The following activities are carried on through these three centres :

8. VOICES FROM THE FIELD:-

1) STUDENT BENEFICIARY'S VIEW:

G.Dharani - Diploma In Hotel Management, 'SEED' – Sriperumbudur

I am Dharani , lost my father at my childhood and mother was a prisoner at Special Prison for Women, studying in SEED from 9th standard onwards and Completed 10th STD and then, I was admitted at Sathyam International Institute of Hotel Manangement & Aviation, Sriperumbudur, as per my choice to study Diploma in Hotel Management & Catering Technology. SEED is taking care of all my Educational expenses and encouraging me to continue my higher Education as per my choice. .

I have two younger brothers. Both of them are studying in our SEED's Mahatma Gandhi High School at our Utkottai Centre .

My first younger brother, Nagaraj,, has completed his 10th standard from SEED's Mahatma Gandhi High School. and waiting to join in our SEED's Dr. J.C.Kumarappa Industrial Training Centre .

The second younger brother, Sivanu is doing his school education in our SEED Mahatma Gandhi High School at our Utkottai Centre

Thus, 'SEED' has fulfilled all my basic needs, such as, Food, Shelter & Clothing. Healthy environment & **dedicated teachers are the real reason for my physical & mental growth in 'SEED'.**

During **important festivals**, such as, **Deepavali & Pongal (Harvest Day)** 'SEED' offers new clothes along with **delicious meals & crackers** .

Along with my academic education, I have gained skill in various kinds of Vocational Training Programs such as Woollen Garland Making, Toys Making, Artificial Jewel Making, Tailoring & Computer program.

Here, I am enjoying my school and college life with my brothers and sisters, who have tremendous love and affection on me.

2) PARENT BENEFICIARY'S VIEW :

My husband is a drunkard and never give attention for the growth of my children. Due to poverty myself and my two daughters were being very hungry for so many days and I came to know about SEED and admitted my children in SEED's Mahatma Gandhi Primary School and 'Home'.. SEED also offered a job for me as a cook along with free accommodation. I am spending my days happily and peacefully with all the children of SEED as a mother including my daughters .

Previously, I was not able to offer my children even a square of meals properly. But, after came to SEED, my children are getting good meals with best education. Whenever my daughters were not feeling well, SEED took them to one of the best hospitals in Chennai Sri Ramacahndara Medical college and Reserch centre and gave the best treatment to them, which is unimaginable.

When my child came with torn dress, SEED offered them new good dress. Teachers and home – in – charge took keen interest on the development of my daughters, better than the care I gave to them in my home.

I am always thankful to 'SEED' to light the lamp in the life of my daughters by educating them to this level.

3) SEED – ALUMINI'S VIEW :

V Rajeendiran – Prop. Sun world company

My name is V.Rajeendiran . I belong to Kumaramangalam, a remote village, in one of the backward districts of Tamilnadu State, Kallakuruchi .

I was staying and studying in ‘SEED’ from 1988 to 1995. While I was in ‘SEED’, I learned lots of handicrafts work, such as Mat Weaving, Cloth weaving , Carpentry & Electronics. I was also interesting to learn drawing .

After completing my Primary Education at SEED’s Sriperumbudur Centre, I went to SEED’s Utkottai Centre for my high school education, where I learned to maintain Cattle Farm, Poultry, Paddy Cultivation & Vegetable Cultivation, with interest and involvement, along with my academic education. I gained lots of experiences in my life in ‘SEED’ which are immortal in my pleasant memories.

Since, I studied in ‘SEED’ from my childhood, I had an opportunity to have friendship with my age group children, came from various parts of our State and also learned to face anything in my life with courage and wisdom.

I studied the Life History of Mahatma Gandhi, while I was in ‘SEED’.

After completing my 10th standard (SSLC – School Final), I Joined in a renowned Industrial Training Institute at Thindivanam with the help of SEED and completed my two years Mechanic (Motor Vehicle) course successfully. Immediately, I joined as an Instructor in our SEED’s Dr. J.C.Kumarappa Industrial Training Institute. After completing my education in SEED, I lived in SEED for more than 10 years and rendered all kinds of services to my mother institution, SEED .

Then, I started my business in a small scale by making advertisement boards and name boards. Later on it is developed as “Sun world

Enterprises” which is doing Building Construction Work due to good rapport with nearby Multinational Companies .

Now, I got married, and I am surviving with my wife, two daughters & my lovely son.

I have also constructed my own house in my native place to make remaining part of my mother’s life to be happy & gay.

SEED has not only offered me good education, but also, educated my sister up to the level of Diploma in Nursing & Midwifery. After successfully completing her Staff Nurse Training Course, she worked in Malaysia & now, she got job in a Government Hospital on merit. Her life also lit by SEED.

My life & my present position are the gifts of ‘SEED’ for which I am ever grateful to ‘SEED’ and its dedicated team of staff.

4) STAFF / VOLUNTEER SPEAKS:

A. Rajaselvi , Teacher , SEED – MAHATMA GANDHI PRIMARY SCHOOL, SRIPERUMBUDUR

I am working in Mahatma Gandhi Residential Primary School, a Unit of SEED, Sriperumbudur Village, from 2015 onwards .

‘SEED’ is rendering service for the children of LIFE PRISONERS, VICTIMS OF SERIOUS CRIMES LIKE MURDER, LEPROSY PATIENTS AND ALSO FOR THE DESTITUTE, DESERTED AND SOCIALLY ABANDONED CHILDREN through its Residential Primary & High School, where food, clothing & shelter are offered at FREE OF COST for our less fortunate brethren.

Instead of working in other schools, I have got mental satisfaction by working in SEED’s School, which is doing yeoman service to the underprivileged children without any expectation and bring them up in their life by caring these uncared children.

We are making our children to read themselves by using phonic due to which they are capable of reading any books other than the prescribed ones from their second standard

onwards. We are also conducting Spoken English classes to create confidence to face the future with courage & wisdom.

Initially, we used Smart Class Room with the source from Website for effective teaching. Later on, we made the videos of our children on easy learning methods and uploaded them in our newly created Mahatma Gandhi Primary School You Tube channel. This innovative programme motivated our children in learning new things everyday. It improves the educational standard of our SEED children and gives me much satisfaction as an instrument for this new venture.

Main lessons learned and recommendations

Main Lessons Learned:

- * In implementing the programme for the children of Life Prisoners, we have to satisfy not only the condition laid down by the Prison Authorities, but also the ambitions of the parents (Life Prisoners) (i.e.) getting parole for seeing their children and bringing the children to the prison on frequent intervals to show them to their parents (Life Prisoners).**
- * In admission and withdrawal, permission of the Child Welfare Committee should be obtained.**
- * As per the new enactments, passed and included In the Juvenile Justice Act, more thrust should be given to safeguard the child rights and protect the girl children with more security and safety from external elements.**

- * Proper training should be given to the staff before allotting responsibilities to them
- * Hard and stick policies should not be followed while dealing with the children and staff.

Recommendations:

- * Love and compassion and amicable means should be taken as a tool to tackle any problem arise in the institutions like ours, which are formed for the overall development of the children – in need of – care and protection.

CONCLUSION:-

Thus 'SEED' sowed seed for the under privileged Children, nearly before four decades, which grows like a banyan tree now, only due to the moral & Financial Support, extended by the noble souls like ASHA – ST LOUIS, Public, Philanthropists, Charities, Banks, Government, Foreign Contribution, etc.,

'SEED' continuous its activities to march towards its goal of "Transformation through Value Based Job Oriented Education" by 'caring the uncared' with your kind and merciful support.
