Since the academic year is going to be over only by end of May, 2013, we may come to know the balance in the previous year budget only in the month of June. Hence, we will inform you the balance in the existing grant from Asha – St. Louis before getting your kind financial assistance for the academic year 2013-2014 so as to enable you to deduct the balance amount of the previous year grant from the budgeted expenditure for the year 2013-2014 and sanction the remaining amount as the grant for the academic year 2013-2014.

The above budget has been prepared by increasing 10% in the existing salary of the staff without adding any new items in the budget because sustainability and improvement of the existing education programme for the benefit of the needy children of SEED is much more important than adding new items in the budget.

If the budget seems to be higher, please change/alter the above BUDGET as per the financial position at your end because your association with SEED for the welfare of our socially abandoned children is much more important than the quantum of the money received from your goodselves.
