Hey everyone,

I have been revising Gramya's budget and also working on its WAH budget. I had initially thought that a 7% reduction would be good but then I am increasingly feeling that it would be impractical given the high inflation rate in India. So I could not convince myself to reduce the budget by more than 4%. I also feel that since this is the first year of their budget cut in more than 10 years, 4% is a good starting point that will not hurt their ground operations very much. If others have any objection to this then please let me know.

Regarding WAH budget: I am requesting 39% of the revised budget. That is approx. \$9000. This is more than the amount you suggested, Tara. But I am thinking of going to the WAH group with this amount and if they really have strong objections then I can reduce the amount. I can always justify by saying that we have not been able to raise enough funds.

Attached is the revised budget and WAH budget. Let me know if I should go ahead with this.

I plan on counting your replies as votes for/against this budget (you guys are the only ones who respond via the yahoogroups poll so might as well stick to this mode). So I would appreciate a response from **everyone**.

1. Do you approve the revised budget?
2. Do you approve the WAH budget?

Thanks,
Chandan

Chandan, I voted in the poll. Obviously I am good with both. Did you not get enough votes?
