

Conference call was held on March 25, 2018 at 4:00 PM

We went through the budget line-by-line. The only difference in the Gramya budget from last year is that as per our request they merged the female hygiene camp with the student health-mela to avoid extra cost. So there were no questions raised during the conference call.

Like last year this year also we are not funding the staff exposure trip because of the budget limitations.

Following people attended the conference call
