Update about Asha for Education Study Centers:

Asha for education evening study classes is organized in 8 centers. Students are regularly attending the classes. Qualified educators are appointed to ensure motivation and curriculum are taught to the students. We have introduced lot of activity-based learning for the students this year. Nutritious snacks are provided to the students. Regular monitoring of their health and academic process is tracked for each student. With better performance of students, parents will be motivated to educate their wards for higher education especially girl children. There are lot of changes in parents' attitude towards investing in their children education though they belong to lower middle-class families. Children are constantly developing their innate skills to be b of the students is also monitored.

Annual get together for 10th, 11th and 12th Std students:

Annual get together was organized for students who completed 10th, 11th and 12th std on 1st July 2023 at Tambaram, Chennai. It was a day to share about their experience and impact made by Asha for education study centers. Motivation and guidance for higher studies was given to the students.

Guest speakers shared about the impact education could make to the lives of these students and also guided them on selecting their course for higher education. Our objective of molding of students to be employable will be witnessed very soon. All thanks to Asha for education volunteers.

It was a day of interaction, sharing of experiences and guidance for the students. Over 55 students participated on that day. Gifts and lunch for provided to all the students. All the students were really happy and thankful to Asha for education and FORWARD. All the students took an oath that they will study well and contribute back to the society and lead a socially responsible life.

I remain,

M. SHIAMALA BABY, FORWARD
