

**BTS WORKING STRUCTURE****ACTIVITIES OF BTS : CURRENT INITIATIVES****“Path Bhavan” – The School on Basic Education**

Path Bhavan is the education center of BTS, its first venture into development support for the people of Kultali. In 1983, the first of educational projects were initiated through a primary school in Baikuntapur village with a feeding center under assistance from **Lutheran World Service (LWS)**, Kultali Project. The earlier school for pre-school education later was upgraded to the primary level and came to be known as **BTS-Path Bhavan**. Presently, there are 227 students in Six classes and the level of attendance is over 95 percent.

Six trained teachers (trained by Vikramshila-VERS, Kolkata) are engaged in teaching and BTS ensures that the curriculum is kept vibrant and entertaining. Teachers are sent for regular orientation lessons. Parents are made to involve in the welfare of their wards through regular interaction. Teachers regularly undertake counseling for parents on JOYFULL LEARNING and children and visit their homes. The school administration keeps track of the progress of each and every student. BTS have adopted a rather innovative method (JLP) in rural education which is being slowly implemented to make it popular! Besides regular classes, emphasis on kids skill development on Handicrafts, Physical exercises, Games & Sports, cultural programs.

ASHA FOR EDUCATION
