

Tapovan Education Foundation

Tapovan Education Foundation is a nonprofit, charitable and educational public institution involved in the advancement of education, training and vocational guidance in various fields.

The Vision

- 1) To take quality education to the weaker economic sections of the society.
- 2) To bring all the children of age 5-14 working as the child labor, beggar or house servants to the school with special attention to the girl child.
- 3) To impart the kind of education that gives them a broad vision of life and creates a sense of belongingness with the whole world.
- 4) To spread Smile, Education, Self Reliance, and Self Esteem to every one who has been deprived from it.

Project Title: Sri Sri Tapovan Vidya Mandir

Sri Sri Tapovan Vidya Mandir is a charitable nonformal school to address the educational and developmental needs of the children belonging to weaker economic sections that are not availing any formal schooling. The target children are:

- 1) Children of construction workers on the construction sites that live in temporary shelters in the slum and can not avail any formal schooling because of the highly mobile employment conditions of their parents.
- 2) Child labours employed at shops, hotels, construction sites and household workers, baby sitters, rag pickers and beggars.
- 3) Girl children who are stopped to get education because of social reasons.
- 4) School dropouts for any reason.

These Vidya Mandirs facilitate the development and growth of a child's mental, physical, emotional and spiritual faculties by imparting quality education in a child friendly way and to help them realize their talents and potentials so that they lead a happy and meaningful life.

Sri Sri Tapovan Vidya Mandirs are non formal, primary level schools run in temporary sheds right there in the community, from where the children belong. The schools run for 4 hours daily Mon-Sat at any convenient shift (morning or evening) as per the requirement of the community (like working children can come only in the evening shift). When a child completes his/her standard 4/5 studies (that is as per the NCERT guidelines), he/she is aided to get admission in a nearby govt./ school or some vocational training course as per the child's case.
