

# GLOVIS SANGAMAM PROJECT REPORT - JULY 2015

---

Glovis Sangamam project is continuing to support the 8 schools in Thiruvallur Dist. Here is a report of the various activities that took place during the month of July 2015.

## Teacher Training

Rajaram met with all the teachers on the 18<sup>th</sup> of July. The teachers were trained in Maths based on some of the weaknesses that were observed during their evaluation test in June. In particular we went over decimal arithmetic, powers of 10 and fractions.

Two teachers Santha Sophya and Sailaja are working exclusively on computer related work (going to schools to teach computers and also working on entering Assessment grades and mapping contents to lessons. These two teachers were given some additional training on computers to make them into local experts. A mailing list was also created for the teachers to interact with each other as well as be able to interact with trainers and other volunteers in Chennai.

## Computer Maintenance

Computers in several schools were maintained and problems fixed during this month. Couple of problems in the computers in the Sangamam office were also taken care off.

## Upcoming Events

The statistical analysis of the assessment papers was expected to be completed in July. However some initial analysis on the data indicated some problems in the data entry. These needed to be corrected. Now they have all been corrected and brought together. The analysis will be done in stages over August and September. We will share these reports with Hyundai Glovis once they are complete.

We will be painting the black boards at the school in August. The computers repair effort will continue and the expectations will be for the initial set of 5 teachers to start using their computer effectively. We will giving laptops to 4 more teachers in July.
