</table>
The year 2020-21 was filled with catastrophic events in the Sunderbans. The people suffered unprecedented damage through two cyclones ‘BulBul’ and ‘Amphan’ and the ‘COVID-19’ pandemic. There was an all-round collapse in the sectors of Health, Education, Livelihood, Environment and Human Rights (HEALER). Mukti management was clueless at the beginning on how to address all these matters simultaneously.

To address the multi-faceted problems, Mukti initiated a few new programs along with its flagship HEALER initiatives. Mukti Gram program adopted one village in the Sunderbans called Purba Shridharpur, having 1200 households that were impacted by all the above problems. We tried to implement all our HEALER programs in an integrated way in one location. We launched Gram Clinic to take care of the health issues. We also started rebuilding and beautification of infrastructures, including restoration of roads, housing and public facilities, which were damaged by the cyclones. A large number of women were engaged to uplift their livelihood and protect their human rights. We started Kishalay School to take care of children’s education. We engaged with farmers to improve resilience and organic farming to restore productivity and soil fertility.

Apart from the above initiatives, Mukti also launched Hello Beta program to take care of medical and oxygen needs of COVID-19 victims across West Bengal. Mukti management operated a few other community focussed businesses. The Cloud Kitchen initiative ensured that organic cooked food was home delivered to customers. Mukti Green initiative sold plants organically grown in model villages. The ongoing community business of Mukti Fresh was further extended in terms of capacity and area coverage to support impacted farmers and customers who were locked in home due to COVID-19.

In the journey to combat these challenges, we got a large number of partners, nationally and internationally, to provide support. People from all across the world supported Mukti with funds, technology and guidance. 2020-21 was another successful year for Mukti as it transformed to a medium-scale non-profit organization. With the increased expectation and support of society, Mukti’s growth was multi-fold. This leads to a huge responsibility on Mukti. Sustainability of Mukti as an organization is now important.

Mukti is at an advantageous position with the growing number of supporters from like-minded people and organizations. Mukti designed a program called Mukti Sathi which would continuously focus on growing the pool of volunteers and talent to motivate them in social work. The future of Mukti depends on three pillars: Mukti Sathi - for a team of motivated social workers, Mukti Community Business - to provide funds for running non-profit activities and Mukti Partners - to support the ecosystem.

I would like to thank all our supporters, partners, volunteers, beneficiaries and associates for contributing positively in yet another significant year for Mukti. Stay safe, stay focussed.
Noteworthy Highlights

Empowerment is key:
A Horticulture Training Program for the development of nurseries was initiated at Mukti Library. 22 women now work at the horticulture nurseries and Mukti central gardens.

Mukti Community Development Fund:
Rate of recovery of loan from borrowers 96%

Unemployment problem:
In seeking a solution to the unemployment problem, Mukti developed the Mukti Employment Exchange program. As part of this program, Mukti collaborated with Nagendrapur Ramakrishna Mission to arrange for training of unemployed youth on three subjects- electronics, plumbing and masonry work.

18 years of 'banking':
Book Bank, Mukti’s first program, continues to ‘invest’ in the young to create opportunities for their future.

Pay-back Time:
Students who were beneficiaries of Talented Student Sponsorship (TSS) have now become sponsors of needy students in TSS.
Fresh opportunities:
Creating means of livelihood for improving the quality of life amongst the needy in the Sunderbans has been a key driver for Mukti. In December 2020, Mukti installed an incubator machine that produced 162 Kadaknath and 1351 Kuroiler chicks. A Mukti Sathi supervises the hatching process.

Health is wealth:
To ensure safe drinking water is available to the villagers, Mukti installed two 1,000 litre water tanks with electrical pump sets in Mukti Gram. The water can also be used for landscaping of the village.

Integration within Mukti programs:
Farmers in SAM faced a major challenge in selling their organic produce. This was resolved by creating an outlet channel through Mukti Fresh to sell the organic produce from these farms to customers in Kolkata.
Responses to Disasters
For cyclones Amphan and Bulbul, and Pandemic COVID-19

Mukti’s Crisis Management Centre was created to monitor, assess and respond to the natural disasters of cyclones.

Huge damage was caused to two Mukti Support School (MSS) centres, in Jogendrapur and Purba Jata, by the cyclone Amphan. Other centres stepped up their operations to support students by
a) continuing the Mukti Support School classes in accordance with COVID-19 restrictions.
b) providing books and online classes to the students.

TCS Changemakers worked Post Amphan and during Covid-19 to distribute:
a) 12,000 sanitary napkins in the Sundarbans.
b) Winter blankets to 30 families.

Under Mukti Community Development Fund, number of self-help groups (SHGs) and borrowers increased due to COVID-19 and the cyclones.

Mukti Institute of Technology (MIT) classes were disrupted by the cyclones caused infrastructural damage. Thereafter, Mukti started online classes for MIT.

The "food for work" programme in Mukti’s Model Village created an average employment of 360 per month.

Under Sustainable Agriculture Movement (SAM), 120 ordinary farmers and 350 landless farmers received a variety of vegetable seeds post-Amphan.
Health Programmes

Mukti strives to address problems at the grassroots level. The wellbeing of the people of the rural areas is an important objective. Health becomes an important factor in solving the problems affecting the people in the Sunderbans. From distributing medicines to arranging of medical camps, Mukti endeavours to provide healthcare facilities in its target regions.

- Since 2009, Mukti has arranged 893 medical camps and served over 91,000 patients.

- During COVID-19, Mukti supported government public health centres (PHCs) by providing almost 1,170 oxygen concentrators to 615 PHCs free of cost.

- Through HelloBeta service, Mukti has distributed more than 920 oxygen concentrators, delivered medicines, food and water to COVID-19 patients and helped around 2,500 people.

- In 2020, during September and October, Kolkata Foundation provided over 42,500 packets of GoMo (a protein-rich snack fortified with micronutrients) to 1485 students of Mukti Support School.

- Mukti Community Clinic, in Purbasridharpur, Mathurapur-II block of the Sunderbans, is equipped with a doctor, nurses, beds, stretchers and basic amenities.
Talented Students Sponsorship (TSS)

PURPOSE

The aim of this programme is to make higher education more accessible to students steeped in poverty and help them achieve a better quality of life. Since 2006, the TSS programme has supported around 960 students till date.

MAJOR ACTIVITIES

Mukti is involved in an annual cycle of selecting students under this TSS programme and identifying sponsors for them. Sponsorships are disbursed among students quarterly every year. This year, owing to Covid-19 restrictions, Mukti facilitated virtual meetings between students and their respective sponsors.

ACHIEVEMENTS

- 26% increase in the number of students under TSS.
- Increase in the number of female students to 43% of total.
- 23% increase in number of sponsors for TSS.
- 2 alumni students of TSS started to sponsor new students.
- Students participated in various social work activities.
SUCCESS STORIES

Moumita Sultana
(Vill. Sagardighi, Murshidabad)

When Moumita first received sponsorship under Mukti's TSS, she was studying her 2nd year professional in MBBS degree. That was 2017. Moumita received support from Mukti till she successfully graduated in 2020.

She had started her MBBS journey in 2015, when she joined the College of Medicine and JNM, Kalyani. But financial restraints continued.

Her father works as a farmer, her mother does the job of a para teacher while her elder brother is pursuing a paramedical course. Things took a turn after her selection in TSS. She was, at first, sponsored by the late Dr. Dibyendu Sengupta and, thereafter, by Mr. Somnath Sengupta.

Moumita is currently busy with a year-long housestaffship in Paediatrics Department at the same institute. She wishes to pursue her studies further and become a neurosurgeon.

Joydeb Sardar
(Purbasridharpur, Raidighi, South 24 Paraganas)

Joydeb started receiving Mukti's TSS support in 2013 when he was a high school student. For seven years, Aiducate has been supporting his studies through Mukti.

His parents are part of Mukti’s Sustainable Agriculture Movement (SAM) project. Joydeb cracked JEE in 2015 and took up B.Tech in 2017. In 2021, he completed his course. Currently, he is supporting his family by working in Mukti Fresh. He works in the fields of system administration, digital marketing and management training. He plans to pursue an MBA degree in the near future.
Mukti Support School (MSS) & Kishalaya School

PURPOSE

Mukti Support School began in 2006. MSS centres provide additional educational support to elementary and high-school students in the Sunderbans.

MAJOR ACTIVITIES

MSS provides educational help to underprivileged children from Kankandighi and Nagendrapur Gram Panchayats in South 24 Parganas district. The tuition classes maintain a lower student-teacher ratio than the local schools in the region. This helps produce better results and quality of engagements.

Sulekha Satua is one of the many students who studied under the MSS over several years. Sulekha joined Damkal MSS in class 5 and continued until she passed her Madhyamik exams with a score of 616 in 2019. MSS centres have helped students like Sulekha to pursue their studies with the required resources and support.

Number of students in the last three fiscal years
Book Bank

PURPOSE

Mukti started its Book Bank facility in 2003 to provide academic course books to such students who weren't able to purchase them. The Book Bank is a resource for the books required by students from class V to class XII and undergraduate courses.

MAJOR ACTIVITIES

Students in the Sunderbans often struggle with their educational resources. Most families cannot afford new academic books every year. Certain books are not available in the local market. In such a situation, Mukti's Book Bank enables students to borrow textbooks and reference books under two models.

1. **30% model** - A student can directly borrow a book from the Book Bank by depositing 30% of the book's original price. At the end of the academic year, the student receives a refund of half of their deposit amount on returning the book.

2. **Coaching model** - Students already enrolled in Mukti Support School can borrow a book by depositing 15% of the book's price. At the end of the academic year, the student receives a refund of the full deposit amount on returning the book.

Sustainable Agriculture Movement (SAM)

PURPOSE
Mukti’s SAM project started in 2009 after cyclone Aila affected the region. At first, the aim of SAM was to reverse the increased salinity in soil. It has broadened its scope since and has been fighting the adverse impacts of chemical pesticides and fertilisers. SAM gives a chance to local farmers to switch to more sustainable alternatives of agriculture that are compatible with saline soil and replenish the soil’s natural minerals. The project is focussed on the farmlands of Nagendrapur and Kankandighi GP of South 24 Parganas.

ACHIEVEMENTS
Organic produce from the organic farms of SAM are sold in Kolkata thrice a week through Mukti Fresh.

Organic agricultural has been at the forefront through the following activities:

- 130 farmers have been chosen for Participatory Guarantee Systems (PGS) certification through peer appraisal for the fourth time;
- Planting and growing of salt resistant paddy seeds and saplings across 10 villages in 3 blocks;
- Sowing of 2,000 kg of dhonche or prickly sesban seeds. These seeds were distributed among 210 farmers; and
- Awarding 3 best farmers for their organic farming.
PLANS FOR NEXT YEAR

- To prepare PGS certificate for 188 farmers.
- To organise 150 farmers’ workshops.
- To prepare grounds for Model Village project.
- To provide kitchen gardens to 400 landless farmers.
- Seed bank and to increase the area coverage under organic farming.
- To convert 700 farmers to organic farmers and provide them with organic farming resources.
Mukti Community Development Fund (MCDF)

PURPOSE

Mukti Community Development Fund (MCDF) is an initiative that started in 2012. This programme aims at women empowerment and entrepreneurship in the Sunderbans. Women are provided with training to gain necessary skill sets and means to start and operate their business.

MAJOR ACTIVITIES

Under MCDF, improving the livelihood is a key focus. Women of the region:

- learn to make incense, foam crafting and soft toys among other things; and
- are provided with small loans every year that helps them to set up and run their own local business.

Rs 3.5 crores disbursed as loan in 2020-21

Nearly 228 women entrepreneurs received training this year

96% loan recovered
Mukti Institute of Technology (MIT)

PURPOSE
Mukti Institute of Technology was started in 2016 with the objective of providing computer and spoken English skills to the unemployed youths in the Sunderban region.

MAJOR ACTIVITIES
MIT provides
- four courses in professional computer skills and one course in spoken English;
- free and paid courses;
- monthly counselling sessions to the students along with these courses; and
- linkages with job placement agencies to the students.
Mukti Employment Exchange was started in this year for job placement. Promotional campaigns were run to assist more job seekers' profiles for Mukti Employment Exchange.

PARTNERSHIPS
- Dreamline Job School, a recruitment consultancy, provided training for job interviews to MIT students.
- Don Bosco Technical School of Liluah, Howrah, provided training to MIT graduates in many of their courses, free of cost, with food and lodging.

FUTURE PLANS
- MIT is planning to offer two more courses - hardware and networking, and retail management.
- MIT is soon to be enlisted under Paschim Banga Society for Skill Development (PBSSD) courses like IT, accounting, etc.
SUBRATA BERA

Subrata is an MIT student. He worked in Kolkata but lost his job during covid. Then, he enrolled his name in Mukti Employment Exchange. Through this initiative, he earned the position of a Data Entry Officer in Mukti’s MCDF project in September 2020.

MONIKA MISTRI

Monika was desperately looking for a job in order to support her family. She soon got in touch with Mukti Employment Exchange and enrolled her name. In January 2021, she took a job at Mukti’s MSS as a data entry officer.

Number of students in MIT in the last 3 fiscal years
TCS Changemakers

PURPOSE
The centre for TCS Changemakers at Jatragachi, Kolkata, started in 2018. The centre comprises of volunteers from Tata Consultancy Services. TCS Changemakers work to empower women, train the youth and groom social work volunteers through its activities.

COLLABORATIONS
Rotary Club of Calcutta:
- Food Packets for pregnant women were distributed at an awareness programme in collaboration with Rotary Club of Calcutta.

Naba Diganta Water Management Ltd:
- Mukti Jatragachi Centre, in association with Naba Diganta Water Management Ltd, organized a 3-month training programme in February 2021 for 90 women beneficiaries. The aim of the training was to help them develop and market products like soft toys, candles and eco special jute bags.

Tata Medical Centre:
- Care Kits, groceries, daily necessities and clothes were distributed at Maslandapur, in association with Tata Medical Centre.

Kolkata Anandam:
- Care Kits, grocery and medicines were distributed thrice at Jatragachi and Seoraphuli in collaboration with Kolkata Anandam.

Humanity For You & Me:
- Mukti, in association with HUM distributed stationery among 150 students of Mukti Support School.

ACHIEVEMENTS

HEALTH:
- 40 medical camps were organised at Hingalganj, North 24 Parganas. Care kits and grocery were distributed.

LIVELIHOOD
- More than 1,700 Care Kits were distributed among the needy. These kits were given to those who attended the training sessions and contained the tools that would help them start their independent business.

EDUCATION
- Drawing classes and competitions were conducted in 2020. 15 students enrolled in the classes.

150+ VOLUNTEERS
3600+ WORK HOURS
30+ INITIATIVES

150+ VOLUNTEERS
3600+ WORK HOURS
30+ INITIATIVES
Swavalamban Accelerator in Sunderbans (SWAS)

PURPOSE

SWAS was started in February 2021. It is a livelihood generation programme that aims to empower women by generating an alternative source of livelihood. The programme identifies vulnerable women in the community who can form a Self Help Group (SHG) for redressal of issues pertaining to social and individual rights. The objectives of the programme are to:

- Train 1000 SHG members
- Provide 3 types of training - food processing, tailoring and soft toy making and
- Achieve an income growth target of 40% for the SHG members

ASHIMA HALDER

Nalpukur, Post Office- Gilarchat, Block- Mathurapur II, District: 24 South Parganas,
Ashima and her husband worked as migrant labourers in Kolkata. They lost their job due to the lockdown, came back to their village and started working as daily wage labourers because they did not own any land. Ashima enrolled in the food processing training under the SWAS in June 2020. She received a loan from SIDBI through SWAS. She started making food products like tomato sauce, brinjal pickles, mix fruit jam, chili sauce, banana chips, guava jelly and other kinds of snacks. Ashima actively trains other women in the village, thereby fulfilling the motto of “trained the trainer” concept of this project.
Go Green

PURPOSE

Mukti executes its plants to increase green coverage through this project. Go Green started in 2012-13. The project aims at planting more trees with the help of the Sunderbans community. The efforts help to lower the levels of air pollution while beautifying the landscape. The project has also created several job opportunities.

MANGROVES TO THE RESCUE

- Mangroves were planted over 15 bighas.
- 76,000 saplings planted.
- 1 mangrove nursery created for this purpose.
- 3,500 sundari saplings planted.

Over 1.2 lakh flower saplings planted in the hedges.

20,000 vetiver grass saplings planted.

30 new horticulture nurseries created.

The project involved 71 Mukti Sathi volunteers and employed 150 women labourers.
Model Village

PURPOSE
Mukti started building a model village in 2020 to create an ideal environment in a rural area. For this project, Mukti started working in the village Purbasridharpur in Nagendrapur Gram Panchayat. Following a slew of lockdowns and cyclones, residents began to lose their job and other sources of income. The making of the model village provided a means of livelihood to the people. Villagers are engaged in various activities through a “food for work” programme.

LANDSCAPING
- About 4 km of road has been landscaped and made beautiful.
- 26 flower gardens were built. To support this, Mukti has three centralised gardens.
- 5 school gardens have been beautified in the model village.

HUSBANDRY
- About 4,280 chicks were distributed among 214 Self-Help Groups for poultry farming.
- 3 hatching machines were provided. 2,500 chicks have been already hatched from these machines.
- About 3,000 dragon fruit saplings were distributed among the villagers and 2,000 saplings were planted.
- A coconut nursery was planted and is being maintained.
- 3,500 coconut saplings were distributed among 15 Self-Help Group women to be planted by the river bank.
- 50 horticulture nurseries have been built.

AVERAGE EMPLOYMENT PRODUCED PER MONTH = 360
INFRASTRUCTURE

- Mukti built 3 prototype houses that could minimise damages caused by natural disasters. Mukti will work with villagers and other agencies to help build all the houses according to these prototypes.
- 500 street lights were set up.
- To protect the environment, more than 50,000 mangrove saplings were planted on the banks of the river Thakuran to prevent erosion of embankments during floods.

COMMUNITY ACTIVITIES

- 11 Mama schools were opened to support primary education of 80 students per school.
- All those engaged in the project take their monthly food from a Mukti community shop.
Mukti Cloud Kitchen

PURPOSE
During the lockdowns imposed in the Covid-19 pandemic, several patients were isolated in their homes and had to fend for themselves. To solve the problems regarding their food requirements during these dire times, Mukti Cloud Kitchen was started. The service focussed at cooking healthy and homely food for sale at a nominal price. The services were also provided free of cost to several senior citizens during the pandemic.

CHALLENGES
One of the major challenges was to provide the food comparable to other high-end services with respect to quality while cutting down on the cost and delivery time.

FUTURE PLANS
To upscale the services across West Bengal.
To generate employment especially to train and employ more women.
Create a 24/7 order processing and delivery chain in the same domain.

ACHIEVEMENTS
300+ regular users of the Cloud Kitchen.
It served 10,000+ meals to senior citizens during the Covid-19 at free of cost.
Speedy delivery of services was a key focus. The time window between the order and the delivery is around 4 hours.
The delivery fleet formed a stable job generation platform.
There was no disruption to services under any circumstances. This was possible due to regular and prompt supply of raw material from the organic farms of Mukti.
Eco-friendly packaging for an eco-friendly cloud kitchen in the service domain.
Hygiene was strictly maintained during food processing.
Mukti Cloud Kitchen used organic ingredients only. The fish, meat, eggs and groceries were procured fresh from Mukti’s farms. The processing centres were 100% EcoCert certified.

ENVIRONMENT
Mukti Fresh

PURPOSE
While Mukti was practicing organic farming (Sustainable Agriculture Movement or SAM) with thousands of farmers, it identified the need to make these produces marketable for the enhancement of the earnings of the farmers. Mukti Fresh is such an initiative which brings farmers’ produces from the farms to the plate. Chemical-free organic vegetables are directly brought from the farms of Sunderbans to consumers. Consumers benefit from a same-day delivery that ensures nutrition and freshness of the products. Farmers benefit from a higher income.

HOW IT WORKS
Mukti Fresh is an Agri-Tech and Supply Chain Management initiative by Mukti involved in B2C and B2B. The initiative, which is based out of Kolkata, West Bengal, deals in organic produces ranging from vegetables and fruits, groceries, fish, meat and eggs. It also deals in exotic vegetables and seasonal delicacies like moa (flattened rice balls) and jaggery.

During the lockdowns during Covid-19 first wave, when all giant e-commerce website were shut down, Mukti Fresh was active every day. It effortlessly delivered products like daily groceries to all the customers on time.
ACHIEVEMENTS

Mukti Fresh has served 8000+ customers.

The initiative collaborates with 500+ PGS certified farmers who are working over 1000 bighas of lands.

45+ jobs have been generated.

Mukti Fresh is equipped with a full-fledged e-commerce website and Android and iOS mobile application.

Mode of Operation:
1. Online order and home delivery.
2. Market on Wheels in housing complex. Due to Covid-19 restrictions and lockdowns, Mukti Fresh has set up "Market on Wheels" in different residential societies across Kolkata, to cater to the needs of residents who needn’t step outside their homes to buy daily essentials.
3. Shop-in-shop model

Mukti Sathi

To create a sustainable socio-economic development organization at the grass-roots, Mukti utilises human resources to a great extent in order to carry out its community development activities. For this purpose, it has a base of more than 1,200 volunteers and workers who are known as Mukti Sathi. Among them, over 500 people get a part-time or full-time stipend.
Mukti Overseas

**MUHTI IN AUSTRALIA**
Mukti for Social Development, Australia, is currently working under the leadership of Mitra Das. It has been involved in several fundraising activities to support Mukti India.

**MUHTI IN USA**
Mukti US 503c3 started at the onset of COVID-19. The team works to support causes in the US and India.

**MUHTI IN CHINA**
Mukti, China, began in September 2018 in Shanghai. The team, under the presidentship of Beena Waghela, strives to motivate Indians in China to support the activities of Mukti.
