

**Update on the Sewing Center**  
**June 2007**

For the last one year, the Asha Samajik Vidyalaya Sewing Center has been running at Benipur village. Many of the students (girls) from the center can now sew pants, shirts, salwar-kameez, etc and are making these items on order. They are able to make a profit of Rs 30 - Rs 40 per day.

The teacher at the center Rahana Khatun says that there are approximately 20 girls working at the center. With more orders she is confident of making more profits. There are about 30 people getting trained at the center and we hope that we can provide employment for more people.

Thanks,
