

REPORT OF THE PREP CLASS

April to June 2010

Location: Gali No 3

Govindpuri

New Delhi 110019

Costs	Activities	Volunteer
April		
Rent: Staff honoraria: Vinita and Seema	Most of the prep children passed out of the class and have been admitted in school. Towards the end of the month, the ratio of kids increased a lot. We focused more on arts and craft activities and lots of different types of painting activities too. We made the children do some observation activities where we drew on the board and talked to them about it. This month we made the children do lots of gardening and spoke to them about plants and flowers and how important they are in the life	
May		
Rent: Vinita and Seema	In the prep, we have been following the timetable and also some other activities like before the end of the class, we made them do exercises so that they can dance easily. To keep the kids busy, we have told them a new game where all the kids are in statue position and the other kids are suppose to make them laugh and if the statue ones do then they are out. We made the children do life drawing like made them stick real grass and real part of the leaves for the trees. We took a test to check out the level of the kids. We also told them not to use a lot of plastic at home or even in school.	
June		
Rent: Staff honorarium: Vinita: Seema	To make sure that the kids are making progress, we are regularly trying to make them do tests. We told the children how to do stick painting and the children enjoyed and started doing it with different shapes. Shae worked with the kids in the class and the children enjoyed it a lot. Most of the kids who have come back from the village have forgotten everything they learnt and now we are making them revising it. This month we took tests and Manisha did very well in it and she was given a gift for her good work. In the colour and painting we made them do a scene of the morning and all the kids enjoyed it a lot.	Shae
Note	All cheque numbers will be sent at a later date
