

## The challenge

**Providing after school support to the children of the night shelter:** There is an immediate need for providing after-school tutoring support for middle and high school children of sex workers living in the shelter to help them keep up with the competition. The staff of Nishtha provides emotional and education support for the younger kids. However they are not equipped to deal with the complex problems of middle and high school math and science. After supporting the shelter for 6 years, we will fail in our duty if we cannot enable these kids to pass out of high school at a pivotal time in their lives when the unfortunate life of sex or the easy life of crime lures them away from school. Minadi has provided the proposed budget for providing tutoring support for 11 kids as listed below. Any support towards this very urgent cause will go a long way in ensuring that another child's life is not lost to sex and crime.

Budget for Tutoring Support for High School Students of Night Shelter				
Budget from January to December 2012				
#	Description	Quantity	Rate	Amount
1	Fees for Tutor (2) Morning	11	2000	44000
