

RESCUE JUNCTION

Amphan and Covid-19 Update

Pratyush – April 1st, 2020

Project Progress amidst Covid-19 and Amphan

- Outreach center established and running efficiently in Koderma; **Currently there are 28 children at the center – 21 boys, 7 girls**
- In spite of Govt. Lockdown (Covid-19) and Amphan, Childline and Rescue Junction were fully functional (considered as Emergency Services); although the office remained closed
- Fortunately, they were unaffected by Amphan and have taken all the necessary precautions to prevent Covid-19 spread; so far everyone is healthy (asymptomatic)
- They have access to masks, sanitizer, soap and hand-wash for all team members and kids; Staff worked on rotational shift (limited basis) to maintain social distance
- The project partner is working with the Govt. on securing funding from the relief funds
- A site-visit was performed by Global Giving (Sarbojit Majumder) in November 2019
