## Sri Sai Seva Sadan, Htderabad, Telangana. The budget proposal for Covid Relief 2021.

Sri Sai Seva Sadan, a non-profit organization, is committed to providing services to persons with emotional, developmental and educational disabilities and providing the highest quality service to children and adolescents with special needs.

As a precaution to Covid, Sri Sai Seva Sadan's teaching staff advocate for cleanliness, masks, and social distancing in communities while teaching online classes. Sri Sai Sadan project partner Bhaskar Garu, Administrator (Madhukar Garu), and some of the staff members are well connected with the families of students and sub-staff too.

As Covid is hitting very hard with lockdown, the students and their families suffer from emotional, health, and financial conditions. These families need help to get minimum medical needs and groceries for survival. These items will be packed in a box by a grocery store (Ayyappa General store with the help of the nearest medical store) and informed to the day scholar students who live near the school. Residential students will be informed to buy these items near their village, and a goggle pay will be used to pay the money to the storekeeper.

The Budget of INR 2,80,600 was requested for Sri Sai Seva Sadan in May 2021. It will be used to cover welfare services, including medical, and cover Grocery expenses for May 2021 and Jun 2021.
